

**STRATA**<sup>®</sup>  
WITH EPA/DHA OMEGA-3s

# The Pregnancy Nutrient

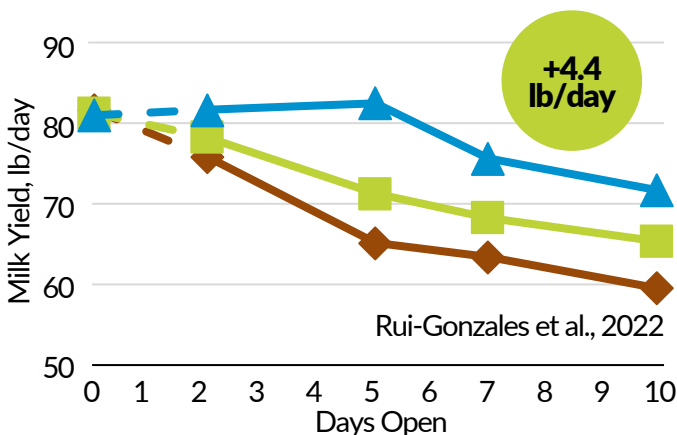

Feeding Strata with EPA/DHA at an essential level fills an important nutrient gap that is extremely common in today's dairy diets. The result? Faster resolution of inflammation, healthy embryo development, and improved pregnancy retention.

## Days to Pregnancy: 21 Days Sooner

Significant improvements in rate of pregnancy seen when EPA/DHA omega-3s fed vs. cows with no supplemental omega-3s.

## Reduced Heat Stress Effects with EPA/DHA

EPA/DHA helps resolve inflammation, thus sparing glucose for milk during heat stress

The Fatty Acid People.
