

STRATA REPRO PELLET

WITH EPA/DHA OMEGA-3s

The Pregnancy Nutrient— Now in a Convenient Pellet

Built for Precision Reproduction

Reproductive success depends on consistency. Yet delivering critical EPA and DHA omega-3 fatty acids reliably can be challenging—especially across species, feeding systems, and management styles.

Strata Repro Pellet is a pelleted omega-3 supplement formulated to deliver the proven reproductive benefits of EPA and DHA omega-3 fatty acids in a palatable, consistent format—designed for both cattle and small ruminants.

Designed for Multi-Species Use

Beef Cattle

Dairy Cattle & Heifers

Sheep

Goats

Primary Applications

IVF and embryo transfer programs

Elite female reproduction programs

Breeding heifer programs

Bull development and breeding soundness programs

Operations focused on genetic multiplication and pregnancy success

Benefits of Feeding Strata Repro Pellet

Improves embryo quality and early pregnancy success

Supports semen quality and reproductive performance in bulls

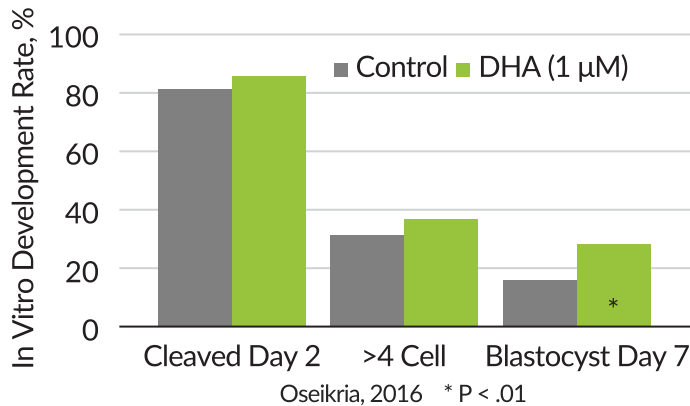

Resolves inflammation for better health

Pelleted form improves intake consistency and reduces sorting

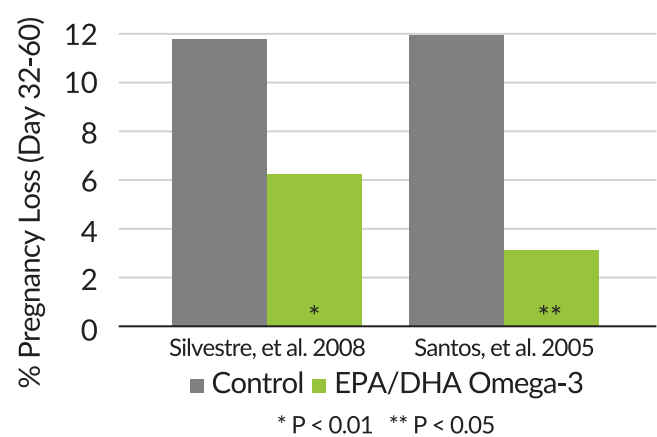

Enhanced palatability with flavoring for sheep and goats

Omega-3 Research: Improve Embryo Development and Retention

IMPROVEMENTS IN EMBRYO DEVELOPMENT RATE

IMPROVEMENTS IN RETENTION & PREG RATE

Feeding Recommendations by Body Weight

Animals over 1,200 lb BW:
0.10 lb per 100 lb BW

Animals under 1,200 lb BW:
0.125 lb per 100 lb BW

Small ruminants (<200 lb BW):
Feed 0.2 lb per 100 lb BW

Specifications

Guaranteed Analysis

Crude Protein (min)	14%
Crude Fat (min)	8%
Crude Fiber (min)	10%
EPA/DHA Omega-3	1%

One pound of Strata Repro Pellet provides 4.79 grams of EPA/DHA as fed.
